B. M. & J. R., Melfort Windows installed April 10, 2007

"We are very happy with the decision to go with Northome Comfort Window, totally satisfied after one year. They are very knowledgeable about their product and easy to deal with. We like the operation of the window crank mechanism and the tinting helps with cooling in hot weather. Reduced heating costs in the winter. After one summer – winter period, window performance appears to be excellent. The installation crew arrived as scheduled, set up their work in a very organized manner, very friendly, and excellent clean up."
