**Northhome Comfort Windows**

## V. D., Esterhazy Windows installed March 2 & 3, 2009

"The best thing about the new windows is how attractive they look. The glass is very clear. The transaction was informative, thorough and easy to understand. There was no high pressure sales pitch. The installation crew set up very quickly and got at the windows with speed. Every person was well organized. The crew was friendly and they did a good clean up."

Comments 1 year later: "The most satisfaction is that the windows are maintenance free. The windows are of high quality, they are easy to open and close and do not frost up in the winter."

Comments 5 years later: "The windows look as good as they did when they were installed 5 years ago. The dollar invested in the new windows was well worth it. The house is cooler in the summer & warmer in the winter. These windows are first class!"
