Northome Comfort Windows

W.&A. L., St. Brieux Windows installed August 26 & 27, 2013

"The reason we purchased windows from Northome was that everyone we talked to that had the windows was very pleased & they look beautiful. We would recommend Northome Comfort Windows to anyone – the windows are beautiful & we noticed such a difference with the warmth in the house. Thumbs up to Northome."

Comments one year later: "The best thing about the windows is that they look great & give way more light in the house. There are no more drafts & the cost of heating the house is much less. These windows are the best investment. We are very satisfied customers. The sales interview was 100% – all questions were answered & explained. The crew was very polite & clean up was excellent."
