Northhome Comfort Windows

A. A., Star City Windows installed July 23, 2009

“We saw your windows at the Tisdale Trade Show, we thought it would be the best and fastest way for us to get windows in. It sure was. They came at 9 am and were gone at 3:15. Can sure notice that the house is a lot cooler on hot days. Windows are easy to open, much easier than our old slider ones. On installation day the installers were all good even the clean up in the house and out in the yard, they were great.”

Comments 1 year later: “My new windows give me more comfort in winter & summer. The rooms are cooler in the summer, the heat doesn’t come through the glass like it used to.”
