Northhome Comfort Windows

B.&D. W., Tisdale Windows installed October 20, 2008

“We are very satisfied customers, and we feel that we have gotten our money’s worth and we thank you for that! Thank You! Thank You! The best thing about my new windows is that right about now, I would be buying window kits and putting plastic up, no more of that! The true value of the windows is the peace of mind that they will never have to be replaced again – that is an awesome value. The luxury of not worrying about winterizing my house, the windows are perfect!”
