Northhome Comfort Windows

H.L.&C.H., Churchbridge Windows installed November 23, 2015

“The reason we purchased Northhome windows was because the windows are flush with the inside wall to reduce condensation & to have warmer windows. The staff was very pleasant & nice to deal with – extremely friendly & that was nice – like family. I have never seen such a “mess” conscious crew in all my life!! It was really nice to see that they were “aware” of their boots, etc. No other service company has ever been this considerate. They vacuumed!! It was great – they treated my house like theirs. Thank you so much for the windows & service!”
