Northome Comfort Windows

W.&C. T., Wynyard Windows installed January 22, 2016

"The reason we purchased Northome windows was because of their extraordinary customer service! Anyone we talked to who has Northome windows highly recommended your company. Considering the age of the house & old building materials (the house is made out of cement), the installation crew did a crazy super job. We would highly recommend Northome! We've done our fair share of renos & after putting in generic windows, the Northome windows have to be the best windows we've ever installed!"
