Northhome Comfort Windows

L. & P. C., Regina Windows installed June 2015

"We had seen Northhome Comfort Windows at the 2015 Home Show & liked the product that the reps talked about & that it is made in Saskatchewan. Best thing about our new windows is the cross ventilation & the ease of opening & closing. The installation crew was excellent – friendly. We were most impressed that the inside & outside of the house was left immaculate."
