Northhome Comfort Windows

A.L., Canora Windows Installed October 13, 2015

"I was impressed that the owner's themselves came out to do the transaction and were very pleasant and informative. The crew was really great. I feel like I could work with them at any time. They are great to talk to, explained everything I asked. They cleaned up everything and I also couldn't believe how fast the job went. I don't want to put curtains up - the windows seem great from the inside and out."
