Northhome Comfort Windows

K & J. B., Sturgis Windows Installed September 2, 2014

"The sales rep was excellent - very thorough and worked around my schedule. The office staff was very good - always pleasant. The installation was excellent! I left home for 10 minutes to drop the kids off at school, when I returned, ladders were set up, floors covered, people were busy. Very efficient! The entire process was easy and very positive. Windows are something I only want to replace once and I feel I have chosen the best product available."

Comments One Year later: "The house has no drafts and is much quieter. The value of the windows and the installation was well worth the cost. If I had to install windows in a different house, I certainly would choose Northhome again."
