Northome Comfort Windows

W.B. & B.O., Kamsack Windows installed August 8, 2014

"The reason we purchased Northome windows was because of the advertising and good recommendations from satisfied customers. It was something to watch the crew work – such efficiency, experience shows. Fast, friendly & when they were done, you would never even know they had been here!"

Comments One Year Later: "The best thing about our new windows is that we can open the sides and get a breze coming in at night or anytime. We love it! The windows are well worth the dollars invested. Should have done this a long time ago.

The sales agent took his time and explained everything well. The installers knew their job exactly. They were courteous, professional and fast. In a few hours you wouldn't even know they had been here, leaving no mess for us to clean up. All the people we dealt with were friendly, which we appreciate."
