Northhome Comfort Windows

T.&C. B., Kelvington Windows installed January 29, 2009

"We purchased Northhome Comfort Windows as we saw them in other houses. We liked the fact that the windows were professionally installed and completed within one day. They are very clear to see out. No draft, no frost, or ice build up. Clean looking. Easy to open. The installation crew were a great crew, very friendly and accommodating. Clean up was excellent."
