Northhome Comfort Windows

W.&J. L., Kelvington Windows installed March 1999

“Best investment for the home. Have heard from friends and neighbors who put in other windows and some were more expensive and not as good quality! We can look out year round with little or no glare and absolutely no frost.”

Comments 10 years: “The windows are frost free, draft free. I still don’t have curtains on my bay window, I don’t want to cover it up! You have great service, recommendations and we have no regrets.”
