Northome Comfort Windows

B. P.&R. P., Regina Windows installed January 2013

Comments one year later: “The best thing about my Northome windows is how warm they keep the house and the fact that they don’t need plastic. My previous vinyl windows were always wet and frosted when the weather changed. The windows are so attractive and added value to my home. They are really nice to look through, now that I don’t need plastic on them to stop the frost, draft and water from coming in. Cost is always an issue, but so was losing heat through my previous vinyl windows. The installation was done to perfection and the window package was definitely worth the cost I paid. You only get what you pay for, and THESE WINDOWS ARE WORTH THEIR WEIGHT IN GOLD! I am a very satisfied customer. After calling around to get estimates and not knowing one company from another, choosing Northome Comfort Windows was the BEST CHOICE we could have made. Everything was explained to us about the windows with expertise. The sales interview was great, as is the performance of the windows, installation and cleanup were done perfectly. I can’t recommend anything that could be done better. 100% recommended.”
