Northhome Comfort Windows

W. W. & S.C., Regina Windows installed March 2013

"We purchased from Northhome because of the absolutely amazing service and quality product. We saw your product for the first time at the 2012 Fall Home Show and observed it's superior quality then. The best thing about our new windows is they're clean, and they are like a 500% improvement from what we had before. We were impressed with Jonny the first time we met him at a trade show. When Ryan and Jonny came to our house, they were very professional, well-dressed, informative, thorough, pleasant and easy to understand. Telephone and written communications were very detailed and clear. The guys did everything they said they were going to do, plus more! Ryan and Jonny were amazing! They were fast, thorough, friendly and they left our home cleaner than before they started. Really!"
