Northhome Comfort Windows

W.&D. F., Canora Windows installed September 14, 2005

“We have no drafts therefore, we can put a bed under or near the window and not freeze or feel a draft. The work crew were very courteous, and the clean up after. It was a very good investment.”

Comments 10 years later: “The windows don’t freeze up in the cold weather. They were a very good investment. We wouldn’t do anything different!”
