**Northhome Comfort Windows**

## A.&D. M., Canora Windows installed March 25 & 26, 2013

"The reason we purchased Northhome Comfort windows was because of recommendations from friends and family. The sales agent presented us with all the information about the windows in order for us to make an informed decision. The office staff was good, providing friendly communication with regards to our installation. The installation crew was friendly, informative, well organized and performed their job efficiently. Cleanup job was very well done."
