Northhome Comfort Windows

W.&F. O., Canora Windows installed March 19 & 20, 2009

"The best thing about our new windows is that the house seems virtually draft-free and the visibility is much improved, We now have a more constant temperature in the house. The windows are easy opening. The crew arrived at the suggested time, promptly set up and commenced work. All workers were pleasant. Our questions were answered and we were given a final inspection tour. At this point, we believe we make a good decision to purchase Northhome Comfort Windows."
