Northhome Comfort Windows

B.&J. W., Canora Windows installed September 7, 2010 & March 14, 2011

"We really like the clean lines of the frames inside and out. The large clear panes provide a great view. We found the sales agent to be friendly, interested in our concerns and very informative. Overall, we are very pleased with our experience and love the new windows. Bring on winter!"

Comments after second window installation: The best thing about our new windows is the increase in warmth of house, no mould and great look. The installation crew was excellent, very quick, the way they cover everything up is great! (hardly had to dust).

Comments one year after September 2010 installation: "The house is cooler in the summer and warmer in the winter. Increased the house insulation and elimination of frost & condensation on the windows. We like the open, unobstructed view of the outdoors. We were pleased with the fast, efficient and clean service. We are very pleased with the fact we have had no trouble of any kind with the windows. All services were excellent!"
