Northhome Comfort Windows

A. B., Cudworth Windows installed August 12, 2003

“Well made window, very energy efficient, easy to clean, great warranty. Benefits include energy efficiency and saving money! It is worth the money invested.”

Comments 5 years later: “What gives me the most satisfaction is the fact that the windows are just like they were five years ago, there is no wear, the function is still perfect, easy cleaning, lovely to look out windows! I would invest again in these windows if I needed replacement, especially after the experience with five years of hassle free, great working windows.”
