Northome Comfort Windows

B.&J. D., Humboldt Windows installed April 21, 2015

"The reason we purchased Northome windows was because they were recommended by customers that we know. The sales rep made sure we understood the makeup of the product & warranties. The office staff was very helpful and courteous on the phone. The installation was done in good time, they reviewed the operation of the opening windows, were very easy to talk to and cleanup was very good. Both the sales rep & crew were very efficient and knowledgeable."

Comments 1 Year After Installation: "Best thing about my new windows is that there is no moisture on them and it was warmer this last winter in the house. The investment was well worth it - heat savings, no worry of moisture, great quality, installation was professional and complete."
