Northhome Comfort Windows

W.&K. H., Humboldt Windows installed July 28,29 & 30, 2004

"We have enjoyed a hassle-free experience from salesman, to your precision installation team, to your support office services. The best thing about the windows is energy efficient, ease of operation, maintenance free, designed for our climate."

Comments 5 years later: "Our windows are easy opening and closing, less heat loss and are well sealed. If we had to do it over again, we would have installed these windows sooner!"
