Northhome Comfort Windows

M.K., Humboldt Windows installed March 17, 2015

“The initial sales call was a very positive experience that resulted in feeling confident that I’d made the right choice. The installation crew worked quickly, were friendly and cleaned up. The entire experience was very positive. The product has performed up to expectations. I would recommend Northhome Comfort Windows to others.”

Comments 1 Year Later: "Best things about my new windows is that they are draft free, open, close, and lock easily and the house seems quieter - less street noise. The immediate value of the windows is that they look good therefore improving the appearance of the house; the longer term value is savings in maintenance and heating /cooling costs. The unmeasurable value of the window is the convenience and comfort."
