Northhome Comfort Windows

B.&L. W., Invermay Windows installed November 1997

“The Northhome windows reduce the amount of wood we use in our furnace. They add a whole new look to our home and we find them easier to clean. We got rid of the old window- sills, which were rotting and looking terrible. The window quality is one of the best you can buy. The sales interview was done with no pressure to us. We were given suggestions as to what would look best for our particular needs. The crew were a great bunch of guys and they did a very good job of installing and clean up both inside and out.”
