Northhome Comfort Windows

T.&D. M., Langenburg Windows installed March 30 & 31, 2011

"The best thing about our new windows is they don't "feel" cold. During a recent snowstorm that is what we noticed other than the good looks. The sales agents was very informative and pleasant and surprisingly not pushy. Right off the start we knew what we would pay, no hidden costs. The crew was wonderful, they knew what to do and how long it would take. Cleanup was excellent."

Comments one year later: The best thing about my new windows is ... "We don't have any leakage, drafts and they look absolutely beautiful. Easy opening and closing, care free maintenance and they look great. Our home is over 100 years old and with the choice of windows we believe it has preserved the character of our home." Are you a satisfied customer? "Yes we are. The energy savings plus the installation was painless. Two days in a two storey house and virtually no clean-up."

Comments 5 years later: "Our windows don't freeze up & leak. They are beautiful windows. Our Northhome windows were a very good investment and have added value to our home."
