Northhome Comfort Windows

A. C., Wadena Windows installed June 7, 2000

“Even with the rising fuel prices, I have a financial saving with these windows. We have no regrets that we spent the money. The performance of the windows is exactly what we were told they would be. The installers were friendly, quick, efficient, and did a total cleanup.”

Comments 10 years later: “The best thing about my windows is the year round transparency, no frost or condensation or weeping. I am still highly pleased. The cost is totally balanced by the comfort they provide.”
