Northhome Comfort Windows

B. D., Watrous Windows installed July 15, 2009

“The best thing about my new windows is the warmth & clear view now that fall has set in – it’s a pleasure to actually have great windows. The installation crew was great, very professional and pleasant to deal with. I would recommend your company to anyone.”

Comments One Year Later: “We are pleased with the product and have mentioned to friends how well they work. We were very pleased with the workers and their clean up after the job was done. It was a pleasure to have them do the work.”
