Northhome Comfort Windows

A.G. & C.S., Watrous Windows installed April 23 & 24, 2013

Comments 1 year later: “The house is warmer in the winter & cooler in the summer. The windows keep out the drafts & the house is easier to heat. I love the look of the windows, the ease at opening & closing them & they are easy to clean. The sales interview was very informative regarding the work to be done. Installation was fast & efficient, the workers were great & the cleanup was impressive.”
