Northhome Comfort Windows

B. K., Watrous Windows installed March 17, 2010 & April 15, 2011

“Excellent quality. I like the finished look of the window flush with the wall. I also like the grills. The window itself is a piece of furniture, very appealing. Nice clean cut appearance. No more drafts coming in when there are strong winds. I like to just sit and admire them. They are beautiful!

Comments 5 years after first installation: “What I like most about the windows is the looks. When we had cold windy days, there was no cold draft from the windows. My heating bill is much less than it was before I got the windows.”
