**Northome Comfort Windows**

## T.&B. H., Willowbrook Windows installed November 17 & 18, 2008

"We purchased Northome Comfort Windows because they know they're product thoroughly and were prompt on giving us a price. The new windows look so nice and are much warmer. On installation day the installation crew were very polite and cleaned up well. They did a very good job."

Comments one year later: "The best thing about our new windows is how quiet the house is now and we save on our heating bill. The house is brighter and the windows are easy to clean. Everyone was helpful and not pushy, the installers were polite and efficient."
