Northhome Comfort Windows

T.&S. B., Wynyard Windows installed October 26 & 27, 2009

“We are very pleased with the new windows and are thoroughly enjoying them every day. The best thing about the new windows is being able to look out without major condensation and NO MOLD! The sales agent was very informative and helpful in our decision on what type of windows to install. We definitely would recommend you to anyone.”

Comments 1 year later: “These windows are worth every penny! We are definitely satisfied, just as great today as they were last year. The house stay warm in the winter. We have the ability to open windows at any time of the year. Loving the reflection/ tint factor- keeping the suns UV rays out!”
