Northhome Comfort Windows

S.&D. J., Wynyard Windows installed July 11, 2014

"The reason we purchased Northhome windows was because of the quality that we heard from others & the salesman. There was lots of information during the sales interview but it wasn't hard to understand. The office staff were pleasant & got the job done. The installation crew were speedy, friendly & did a good cleanup."

Comments One Year later: "The day after installation, my young daughter thought they had forgot to put in window panes! This is how drastic the difference was over our old windows. I'm sure we could have purchased lower price windows but we decided on Northhome because we were looking for excellent quality that will last for hopefully as long as we live in this home."
