Northhome Comfort Windows

A.&C. H., Foam Lake Windows installed May 8, 2009

“We are pleased so far with your product and service and are looking forward to having a nice, comfortable home in the months/years to come. The windows are bright and the hardware operates well. Cheryl and Nelson do a thorough and informative presentation. They are pros at this plus very friendly as always. The installation crew were friendly and they worked well as a team. We appreciated how they cleaned up after themselves, especially in Cecile’s flower beds. It was also nice to have it done in less than a day.”

Comments 5 years later: “What gives us the most satisfaction is the nice clean appearance and the ease of operating of these windows. They were a good investment! Thanks!”
