Northome Comfort Windows

T.&S. A., Manitou Beach Windows installed July 2 & 3, 2014

"The reason we purchased Northome windows was because of their reputation for high quality windows with installation. The installation crew was amazing! They climbed out of the vans & things instantly began to happen – very well organized! This company is very well organized, pleasant & courteous, efficient & honest. I felt quite safe leaving the house in their hands."

Comments One Year Later: "The windows look good and make the house look good, therefore, they will show well when eventually the house goes on the market. All was well - honest sincere sales interview, very organized and almost invisible installation crew who did an excellent clean up job afterwards."
