Northhome Comfort Windows

T.&S. Z., Melfort Windows installed June 27, 2011

"The benefits of our new windows is lots of light as well as a huge change in the temperature. The cottage is much cooler in the summer. Our money was very well spent. The windows totally changed the look and feel of the cottage. The interview, installation & performance of the windows are all perfect. We wouldn't change a thing!"

Comments Five Years Later: "What gives us the most satisfaction is that our Northhome windows look great and keep our cabin cooler in the summer. They were a very good investment and we wouldn't change a thing."
