Northhome Comfort Windows

W. L., Mistatim Windows installed June 17, 2004

“The windows are worth the money we invested. Installation was A-1. The best thing about the windows is the quietness and no more painting. The tint is cooler in summer and the house was much warmer in winter.”

Comments 5 years later: “These windows were a very good investment. I have never regretted the money spent. Warmer in winter, cooler in summer. I like that there is no moisture getting between panes and making spots. Easy opening and closing at any time.”
