Northhome Comfort Windows

T.&D. A., Muenster Windows installed October 10, 2003

“The salesman was excellent giving us an exact price on the spot without having to wait. The windows simply look great both inside and out. Draft free comfort. Open with ease.”

Comments 5 years later: “What gives us the most satisfaction is that there are no drafts. The tinting helps reduce heat in summer and from people seeing in the house so easily both during the day and night. I feel the service has been superior thus far.”

Comments 10 years later: “The best thing about our windows is that the seals have withstood our winters – all remain intact & still look fabulous! They were absolutely a great investment! Have not ever regretted choosing Northhome Comfort Windows.”
