Northhome Comfort Windows

W.&O. M., Yorkton Windows installed December 17, 2009

“Our windows look good. They make the house look nicer on the outside. We can open our windows easier now. We can see clearer outside. The sales interview was informative, thorough, pleasant, easy to understand. All communications were very pleasant, informative and very helpful. On installation day the crew was great. The clean up was done very well. They were all friendly and informative.”

Comments 5 years later: “We like that our windows don’t freeze up & keep the heat in! They also open nicely in both winter & summer. The windows were a good investment.”
