Northhome Comfort Windows

V.&E. S., Yorkton Windows installed September 1997

“We replaced all the windows which was better value per window. Quick installation. Quick service. Pleasing and accommodating personalities of workers. Quieter in-doors, warmer inside, no frost on windows during coldest month in January, cuts down sun glare, like the warranty. Very satisfied with Northhome Comfort Windows.”

Comments 10 years later: “Purchasing Northhome Comfort Windows was a good investment. We are most satisfied with the ability to open windows and get a good breeze thru in summer.”
