Northhome Comfort Windows

V.&E. S., Burgis Beach Windows installed November 9, 2006

"Excellent quality and workmanship. Windows kept the hot air out and the air conditioning inside. Noise levels from outside were almost cut out completely. No maintenance required and a much better appearance. Ease of opening, especially having the front windows designed to pick up the fresh air coming off the lake. Installation crew were prompt, cheerful and did an excellent job cleaning up inside and out. We will recommend Northhome Comfort Windows to any other potential buyers.
