Northhome Comfort Windows

B.&D. S., Elfros Windows installed February 1997

"Clear view all the time. Easy cleaning and upkeep. Low maintenance both inside and outside. No draft. Sales - not pushy - well explained options. Installation - worked quickly but good job.

Comments 10 year later: After 10 years the windows were definitely worth the investment. They always look new inside and out after cleaning. The best thing is being able to open them any time of the year".
